Fought Many Battles

CPL. LORENZ ZELISKO

Cpl. Lorenz F. Zelisko was inducted into the service at Camp Walters, Mineral Wells in February 1942.

He received his basic training, as a teletype operator for the Signal Corps, at Camp Crowder, Mo., and Columbia Air Base, Columbia, S. C. In January of 1943 he left for assignment overseas.

Cpl. Zelisko participated in the North African, Sicilian and Italian campaigns, the invasion of Southern France, and later returned to Italy for further duty.

Cpl. Zelisko served with the 1005th Signal Company under the command of the 12th Air Force, servicing chiefly fighter groups.

In 1943 units under the command of the 12th Air Force occupied the Island of Pantelleria and it became the first Air force in the world to be given full credit for the surrender of ground objectives.

Cpl. Zelisko recently sent home a small part of that surrender flag. While in Italy his unit was awarded the Meritorious Service Plaque for exceptional performance of duty.

Cpl. Zelisko returned to the States early in September after spending 32 months overseas in active duty. He had not been home in 39 months.

Among the awards which Cpl. Zelisko wears are the E. T. O. ribbon with 8 battle stars and the Good Conduct medal. During his tour of duty he accumulated a total of 107 points and has just received an honorable discharge from military duty, at Ft. Sam Houston, Texas.

Cpl. Zelisko is a graduate of Cameron Yoe High School, and of Texas Lutheran College of Seguin. He is a son of the late Mrs. Annie D. Zelisko and a brother of Mrs. Leo Fuchs of Cameron, and A. L. Zelisko of Buckholts.

TOJO TO BE JAILED SAYS EICHELBERGER

Hideki Tojo who says he brought on the war in the Pacific and who attempted to kill himself recently when arrested by US military police, will be taken to jail as soon as he has recovered, it was announced by General Eichelberger.

Tojo is fast recovering, being under care of American doctors. It was said the former Jap premier may go to jail within a week. In all 32 Jap war criminals are in jail.

Men from 17 warships of the Pacific Fleet will be in home waters soon and they will be discharged, General Douglas MacArthur said Thursday that the 43rd Infantry Division will return home soon.

General Franco in Spain says he may soon retire from office.

GAS AND OIL CRISIS IS FACED BY TEXANS

Texans may be without gasoline or oil by next week, it was indicated at noon Thursday as more than 30 oil refinery and petroleum workers were out on strike.

Texas became the focal point of labor disputes with in the past 48 hours and Governor Stevenson at Austin said that gasolines and fuels will be available for essential transportation if a way can be found to transport it. Storage gauges indicated that Texas is well supplied.

More workers were leaving their jobs in the east as the auto industry faced a shut down.

Mrs. W. A. Doyle, Jr., and daughter, Sandra Kay, are visiting relatives in Brady.

Key Insurance Rate Increased as Penalty Imposed on City

Cameron's key rate on fire insurance has been increased as the result of a penalty imposed for failure to make stated reports to the Fire Insurance Commission.

It was indicated early Thursday that steps will be taken at once to file these reports and get the penalty lifted. Some believed it can be done as the Insurance Commission has been reasonable in such matters.

The notice from the Insurance Commission said the following increases have been made: 2c on mercantile risks; 1c each on special classes and hazards.

The Insurance Commission said this increase is being imposed because monthly reports have not been received from the city's fire marshal. It was believed the situation would be corrected at once.

Two Cars Stolen But Recovered; Motors Burned Out; Warning

Sheriff Carl Black Thursday issued a warning to car and truck owners to take keys from the ignition switch when they park their cars.

A pickup truck belonging to H. F. Smith was stolen from Sant Fe town last night around 11 p. m. Later Sheriff Black found the car on Highway 36 near Buckholts. The motor of the machine was burned out.

A Buick car owned by Bert Thrasher from Rosebud was stolen from a night club about midnight. The car was found on Highway 36 near Rogers. The motor was burned out.

Surrender of Japan Film Due Here Friday At Cameron Theatre

The surrender of Japan, movietone news film taken aboard the Battleship, Missouri, in Tokyo Bay, will be shown at the Cameron Theatre Thursday and Friday, September 27 and 28, it was announced early Tuesday by John Prude, manager.

Mr. Prude took immediate steps to let the patrons of the theatre and the public know about the picture.

It is being shown for the first time. The scenes are actually of what occurred as General MacArthur directed ceremonies aboard the ship which meant the capitulation of Japan.

In as Commander of The 11th District Streetman is Sworn

Emmett W. Streetman, new 11th District Commander of the American Legion, took oath of office at the State Convention held in Fort Worth Monday and Tuesday.

Mr. Streetman was elected some time ago and was awaiting the state convention to qualify. He is now a member of the State Executive Committee. A meeting is planned for October.

H. G. Nami of San Antonio was elected State Commander after a spirited contest on the floor of the convention.

Attending the convention from Cameron were Mr. Streetman, Joe Richter and H. B. McClellan.

Sgt. Stanley Vaculin Returning Home

WITH THE SECOND ENGINEER SPECIAL BRIGADE IN THE PHILIPPINES, September—Sgt. Stanley Vaculin, son of Mr. and Joe Vaculin, Rt. 1, Cameron, is returning to the United States under the provisions of the War Department Readjustment plan.

A veteran of 31 months overseas service in the SWPA, Sgt. Vaculin wears the Asiatic Pacific theatre ribbon with four bronze service stars for the New Guinea, Bismarck Archipelago, southern Philippines, and Luzon campaigns, the Philippine Liberation ribbon with bronze star, and the Laurel Wreath of the Meritorious Service award won by his unit, the 562d Engineer Boat Maintenance Battalion. He saw action along the New Guinea coast, on the Admiralty Islands, and on Leyte and Luzon Islands in the Philippines.

Prior to his induction February 19, 1942 Sgt. Vaculin was farming in the vicinity of Cameron.

Pvt. Charlie F. Angell of Sheppard Field visited relatives and friends over the week end.

Is Liberated

WALTER E. EICHENHORST

WALTER EICHENHORST IS LIBERATED SEPTEMBER 4

Walter E. Eichenhorst, Warrant Officer, United States Army, one of six local men taken prisoner by the Japs when the Peninsula of Bataan and the Fortress of Corregidor fell in June 1942, has been liberated from a Japanese prisoner of war camp, it was disclosed by his wife.

Mrs. Eichenhorst who lives at Lorain, Ohio, received a 10 word radio gram from her husband stating he had been liberated on September 4, 1945, and is well and would be home in the near future. He has lost much weight and no doubt has been ill much of the time from malnutrition. He weighs only 130 pounds.

This week Mrs. P. A. Wenck who lives in California, a sister of Eichenhorst, received a letter from her brother, dated September 5, 1945, a day following his liberation. Mrs. Wenck, in a letter to The Herald, received Monday, tells of her brother's liberation.

Eichenhorst wrote his sister the day after he was rescued. He was aboard a British hospital ship in Yokahama Bay. He said they were liberated by the American forces on September 4, 1945, about 4 in the afternoon. They were given hot coffee, cocoa and doughnuts, food items they had not seen in three and a half years. They were given permission to send a radiogram at once.

He said he is in fair condition but considering the circumstances and treatment they endured during the three and a half years that he is in good health, except for loss of weight. He said they were being sent to the Philippine Islands. He says he is a very happy man just to be free again and wants to be home and get some good American food.

Mrs. Wenck and her husband, Sgt. Wenck will meet Eichenhorst when he lands.

THOMAS AND RATLIFF TO BUILD NEW BRIDGE

Thomas and Ratliff of Rogers were successful bidders for the construction of the new bridge across Little River at Cameron, it was disclosed by the State Highway Department Monday.

Their bid was \$488,066. Old contractors they built the bridge now in use across the river.

It was understood the new bridge will be a causeway across the bottom above flood water levels in addition to the main span. Piers have been completed for the bridge for more than 2 years, war holding up the allocation of materials.

Cpl. Johnnie Burkeen Arrives in Virginia

Cpl. Johnnie Burkeen has arrived at Camp Patrick Henry in Virginia.

Cpl. Burkeen sent a telegram to his father, Frank Burkeen in Cameron.

It was the first news that had been received from Cpl. Burkeen in a long time. His father and friends here were apprehensive. He was wounded in the fighting in France but was known to have rejoined the forces at the front.

He is expected in Cameron within a few days.

Mrs. W. B. Walden is recovering from an operation in Newton Memorial Hospital.

Mrs. Billie Beard of Buckholts was a Cameron visitor this week.

ALLIED UNTY SEEMS TO BE CRACKING

We've lost the peace and in some quarters the politicians are frightened. We failed to apply the objectives we said we would carry out when fighting was in progress and now our enemies, knowing how stupid and soft we are, are making high carnival.

Fighting has broken out between the French and the Japs in Indo China. We were supposed to have disarmed the Japs, that is we asked them to quit fighting.

A first rate row is brewing over in Bavaria where General George Patton has been ordered to dismiss all German officers, no matter how efficient they may be. General Eisenhower himself used them. They even permitted high ranking war criminals to remain in power in Germany, especially during the days following the negotiated surrender.

In London Molotov, the Soviet Foreign Secretary, has come out in open criticism of American occupation policies in Japan. He says we are too soft and how right he is. He wants a say in the treatment of the Japs.

General MacArthur was to meet with Hirohito this evening at 7 Texas time. The emperor will go to the Embassy. If he shows his teeth and says "so sorry" we will hand over the atomic bomb secrets.

The British press has classified the Big 5 conference as a power politics meeting and "we are headed for another war."

The remnants of the German fleet will be divided between Russia, Great Britain and the United States. It was thought the Jap navy will be similarly divided.

LIEUT. W. L. MCINTOSH AT FORT SAM HOUSTON

Lt. William L. McIntosh, Jr., has arrived in Fort Sam Houston in San Antonio after many months of combat service in the European theatre of war.

Mrs. McIntosh, the former Miss Henriem McHefley, met her husband in San Antonio Monday. They will spend a few days in Cameron visiting her parents, Mr. and Mrs. H. M. McHefley and friends.

Lt. McIntosh who served with the Third Armored "Spearhead" Division under General George S. Patton, will soon be discharged from the service.

Upon his departure from his division in Germany, Lt. McIntosh received the following letter from Gen. Doyle O. Hickey, commanding:

"You are one of the stalwart men of this division that has earned sufficient points for a return home. You have earned this privilege through the willingness of the men of this Division to relentlessly pursue and destroy the enemy across France, Belgium and into the very heart of the Reich. Day after day and night after night, without pause and without rest, the men of this division carried on the highest traditions of our military service to enhance the glory and reputation of this great fighting unit. I am taking this opportunity to thank you for your personal efforts. As a member of our great fighting team, you have sky-rocketed the name of the Third Armored Division across the entire world, and its deeds of valor and accomplishments have been equaled by only a few, and surpassed by none.

"You must rest assured that whatever the future holds in store for our Division, the men that take your place, will be inspired by the fighting spirit and esprit de corps that you have had, and if it should be our fortune to again occupy a role on the field of battle, the standards that you have helped in setting so high, will not be lowered.

"I congratulate you on this well earned opportunity to return to the United States and to your home, and it is my hope that every good fortune will continue to be yours."

JIM WELLS OFFICERS HERE

Sheriff H. T. Sain and Deputy J. S. Mienenheimer of Jim Wells County were in Cameron Monday to return D. T. Moody to that county where charges of forgery have been filed.

Merlin Lester, electrician's mate first class, Cameron, has been honorably discharged from the Navy, First Naval District Headquarters has announced.

Stationed At Manila

BURNS BEVER THOMAS

Burns Bever Thomas, Petty Officer, Second Class US Navy is now stationed in Manila. His ship is the APL 19.

Before being stationed in Manila he was on the Manus and Samar Islands. He received his training at San Diego before going to sea.

Mrs. Thomas who is the former Miss Martha Overstreet and their son, Burns, Jr., live in Cameron. Thomas is the son of Mrs. Lovedy Bever Thomas of Cameron. He left Cameron for the navy.

Cameron Sailor on Carrier "Wasp"

ON THE USS WASP OFF TOKYO—Wiley O. Whittington, yeoman third class USNR, son of Mr. and Mrs. W. W. Whittington, Rt. 4, Cameron, is serving on this aircraft carrier in the 3rd Fleet's victory cruise.

However, the Wasp's record week, March 14-20, still is the main topic of conversation. The ship took a 500-pound bomb through the flight deck, suffering 102 casualties. Within 50 minutes she was ready to launch her planes.

In that week Wasp and her planes shot down 14 aircraft and destroyed six on the ground, scored two 500-pound bomb hits on each of two enemy carriers, dropped two 1,000-pounders on another battleship, three 500-pounders on a heavy cruiser, a 1,000-pounder on a big cargo ship and heavily strafed a large submarine.

Edward Fuessell in Hospital; Was Injured In Car Crash Here

Edward Fuessell of Buckholts is in Newton Memorial Hospital badly injured as the result of car crash Saturday night.

The car in which he was riding was sideswiped by a car in which Bill Borgas and others were riding. Mr. Fuessell suffered a crushed arm. Charges have been filed and the men are out on bond.

Foreign War Vets At Milano Organize

A new post, Veterans of Foreign Wars, has been organized at Milano. The post is known as Connie, Doots and Cliff Post No. 4459 and its officers are as follows:

Lon M. Peeples, Commander; Alfred M. Taylor, Sr., Vice Commander; Joe T. Baggett, Jr., Vice Commander; Jimmie Haddock, Quartermaster; James L. Walker, Adjutant; Colgate M. Williams, Chaplain; J. C. Hood, Theo. Bullock and Archie N. Graham, Trustees.

The new post was inaugurated by Henry Perry, Department Commander of the Veterans of Foreign Wars in Caldwell on September 16.

E. H. Watson S1-C Lands in Tokyo Bay

TOKYO BAY, September—E. H. Watson, seaman, first class, USNR, 20, Route 3, Cameron, was aboard one of the first Navy combat seaplanes to land in Tokyo Bay.

The sight of Allied Naval power massed before Tokyo greeted the crew of the Fleet Air Wing 1 Mariner as it circled for a landing.

In the three weeks before the surrender, Fleet Air Wing 1 sank 16 ships, damaged 31, destroyed one plane, damaged two, and destroyed two shipyards, two docks and three radio stations.

Mrs. Beaver Thomas and Mrs. Joe O'Neill are spending the day with Mrs. O'Neill's mother in Burlington, Mrs. Fritz Wied and family.

POULTRY SHOW DATES ARE ANNOUNCED HERE

Dates for the Cameron Poultry Show have been announced for November 1, 2 and 3. The location has not been announced but the show will be held somewhere in the mercantile area.

The show is being sponsored by the Chamber of Commerce. The Committee on Agriculture of which John B. Henderson is chairman, details for the show are being worked out.

A special committee on rules and regulations was announced as follows: P. W. Davis, Chairman; Bill Arthur and Leo Fuchs. Prizes will be announced in a few days.

While Milam County is one of the larger poultry producing counties in the state, poultry shows in Cameron have been poorly patronized in the past. The Cameron show should attract the entire state. The city has no facilities for staging the show but currently recommendations are being made for these facilities.

ENLISTMENTS ARE URGED BY THE NAVY

Men to man history's mightiest fleet as it prowls the world to maintain peace will be recruited in an immediate national drive according to Lt. Commander Jack Beebe, Officer in charge of Navy Recruiting in Southern Texas.

"Texans, military and civilian, played so memorable a role for the Navy in its phase of winning the war that we are now being called upon to support another great objective, maintenance of the peace," Commander Beebe said. "So great was the response of Texans in those dark, desperate days of 1942, when our own cruiser Houston was but one of the many victims of the treacherous enemy, that in the minds of Americans Texas almost has become a Naval entity in itself.

That tradition must be maintained by volunteers to keep the peace won at so precious a cost to fellow Texans and fellow Americans.

Enlistments are being accepted for the regular Navy from those 17 to 30 years of age for four year terms and 17 to 50 years for Naval reserve for the duration of the national emergency plus six months.

For those men who have not yet reached 18, and enlist with the consent of their parents, the term of enlistment is only until they reach majority on their 21st birthday.

Chief H. H. Powell will be at the Post Office building in Austin, where he may be contacted at any time, by those who wish to inquire about enlistments.

WILLIE TEMPLIN NOW IS REPORTED ALIVE

Mr. and Mrs. Emil Templin of Coleman, and formerly of Cameron have been notified by the War Department that their son, Willie Templin, who had been previously reported dead, is alive.

Their son enlisted in the Army before Pearl Harbor and was located in the Philippines. He was captured by the Japs when Corregidor fell. The message said he was alive and had been liberated, but was hospitalized.

Mr. and Mrs. Templin's son, Henry Templin was killed in action in the European Theatre of operations.

Sgt. W. H. Gilliland Writes From Pacific

Sgt. William H. Gilliland, son of Mr. and Mrs. Jim Gilliland of Cameron, Rt. 3, who is serving in the Infantry in the South Pacific writes his parents that he has seen quite a lot of action during the war.

Sgt. Gilliland was among the men who took Balet Pass, and in this action he knocked out a machine gun with a hand grenade. He says the Japs stayed and fought to the last man. On visiting Manila he found that the city was badly damaged.

Claude Triggs, local cotton buyer is reported to be improving at his home after being treated at the Cameron Hospital for several weeks. His friends hope for him a speedy recovery.

Killeen and Lampasas Tie in 6-6 Game

Killeen, Sept. 31.—Killeen's high school football team ran up against unexpected opposition in Friday night's game here with the Lampasas Badgers and felt lucky to come out with a 6-6 tie.

Lampasas scored first on a second period, 10-yard pass, Heatherly to Rochester and failed to convert.

Killeen scored on a 20-yard toss in the third with Earl Baker pitching and Wayne Arnold catching. They, too failed to convert, and the game ended that way, 6-6.

Glynness Terry from Corpus Christi is visiting her mother, Mrs. Homer Terry for a few days.

AMERICANS CANNOT MARRY GERMAN GIRLS

American soldiers in Germany are forbidden to marry German girls, it was ordered by the United States government Friday.

American soldiers now serving in Germany are also forbidden to live in German homes.

General MacArthur has further increased his restrictions on the Japs by imposing additional radio and press censorship.

Hideki Tojo has given his campaign ribbons to an American military policeman.

In the war criminals trials now on in Germany a woman said the Germans cremated 4500 Jews at one time. She escaped but her parents, husband and 6 year old son were cremated. She was asked to name the 5 men responsible and she named them, one of whom was a spectator in the audience.

Strikes were gaining headway and emergency gas rationing was being imposed in Ohio.

Governor Dewey of New York has refused to make public a letter received from General Marshall during the recent presidential campaign. The letter, it was said, supposedly says that President Roosevelt knew of the impending Jap attack on Pearl Harbor and that the Japanese code had been cracked.

Rosebud Scores At Will to Beat Waco Outfit, 31-0

Rosebud, Sept. 21.—The Rosebud Black Panthers, displaying power to burn, completely outclassed the light Waco State home eleven here tonight, winning 31-0.

The Black Panthers, scoring in every period, notched five touchdowns and one conversion to win in a walk. At no time during the game did Waco team threaten.

W. E. Buffington, who is stationed at San Francisco, Calif., is visiting relatives and friends in Cameron. T. C. Buffington, his father of Houston, is also visiting here.

His job is over,
BUT OURS ISN'T

Over the next few months millions of service men will be returning from foreign battlefronts. Other millions will be mustered out of U. S. Army camps. Until the last of them is home the railroads of America cannot consider their war job finished.

Home—the beacon which has sustained our fighting men through three and a half bitter years is within sight. It is our obligation to do everything within our power to speed that homecoming.

America is vast and it will take thousands of trains to deliver these men to their destinations, scattered across the breadth of a continent. Thousands of Pullmans and hospital cars will be required, too, to carry America's wounded in comfort. This is work which cannot wait.

We of Southern Pacific feel that this will be the most pleasant phase of a long and difficult war job. We feel sure you will agree, too, that we should devote every effort to its completion. So if you still find it difficult to secure the accommodations desired when traveling please be patient a little longer until we can with clear conscience say—"Our war job is done."

HIROHITO TO ABDICATE SAYS CHINESE REPORT

TOKYO, Monday, Sept. 24.—Brig. Gen. Bonner Fellers, General MacArthur's aide, said today he had no report that Emperor Hirohito had abdicated. Later the private secretary to Sotaro Ishiwata, imperial household minister, said the abdication report was "groundless and false."

WASHINGTON—The Chungking radio broadcast a report today that Emperor Hirohito of Japan has abdicated, the Federal Communications commission said.

There was no confirmation of the report from any other source.

The emperor acted yesterday (Japanese time,) the broadcast said, to avoid Allied punishment, fearing he would be listed as a war criminal.

The radio report continued:

"He sent Foreign Minister Shigeru Yoshida and (break in monitoring—probably couple of words lost) to interview General MacArthur regarding the broadcast was in Mandarin, beamed to Australia and New Zealand, the FCC said.

As recorded by the FCC, the broadcast began with the flat statement that Hirohito already had abdicated.

"Fearing that he would be listed as a war criminal," it said, "Emperor Hirohito abdicated yesterday in order to avoid Allied punishment."

It then went on to tell about the sending of emissaries to General MacArthur.

In Washington Monday it was said that the Emperor and General Douglas MacArthur were to hold a conference, but it was not indicated

whether it had anything to do with Hirohito's reported abdication. The emperor's abdication and to ask General MacArthur for orders and arrangements.

"According to a Tokyo Sept. 21, dispatch, Japanese and American authorities are now discussing the emperor's abdication, so that the emperor would not be listed as a war criminal. There are many different opinions in Japan. The majority of the Japanese officials think that Crown Prince Tsugu will take over after the emperor's abdication."

Lt. Edwin Brady Arrives in States

SAN ANTONIO DISTRICT, AAFPC—2nd Lt. Edwin N. Brady of Cameron, who served 19 months in the European (Italy) theatre of operations as a Pilot has arrived at the San Antonio District, AAF Personnel Distribution Command.

He is the husband of Mrs. Pherrol McElwrath Brady.

Lt. Brady wears the Air Medal, Purple Heart, European Theatre of Operations Ribbon with three Battle Stars. He was a prisoner of war in Germany.

During his stay here, this combat veteran who was assigned to San Antonio upon completion of a 30-day leave at his home, will be duty-free and have at his command all of the many recreational and educational facilities made available to returned airmen by the Personnel Distribution Command.

Looks like everything that some people want to do is either illegal, immoral, or fattening.

Looking down makes one dizzy . . . so keep the head up.

P. A. Tracy With Brown Ship Building Formerly Lived Here

P. A. (Pat) Tracy, former electrician here and radio man, has done an outstanding job with Brown Ship Building in Houston as chief electrical draftsman. In a recent issue of the company newspaper, Brown Victory Dispatch the following story was printed:

P. A. Tracy of Cameron, chief electrical draftsman, has been with Brownship since PC-565 was launched. A man of versatile ability, Pat has been electrician, leaderman, foreman, general foreman and engineer.

A long list of accomplishments preceded Pat before he was employed at Brownship. His years in the Navy and employment in Navy Yards in the East has given him an outstanding knowledge of shipbuilding and electronics.

"Electrically speaking" the associates of Pat are proud of his record with Brownship. His energetic disposition and friendly smile truly mark him in the list of "Personalities."

James Terry youngest son of Mr. and Mrs. J. M. Terry has been transferred to Fort Ord, Calif. He was previously stationed at Camp Hood.

Can Someone Tell Us Why?

This section has been out of normal regularity for the past several years on account of war time. Now relief by the return of normal time has been promised the last day of this month by the government. But to add to the injury School Lunch hour is from 11:45 a. m. to 12:45 p. m.

Lunch time for all business firms from time back has been and STILL IS from 12 Noon till 1 p. m.

The Citizens of this city, who incidentally provide a living for their families and PAY TAXES—part of which keep the schools operating in this city would really enjoy sitting down to a noonday meal WITH THEIR FAMILIES at the normal regular hour, without grabbing a bite and running. And what a relief to the housewife who would be able to place a warm meal on the table, eat with the whole family, not have to get up to place more food for this one and that one at various times, be able to clean the table and dishes when the meal is over.

Do You Want Better Health?

If you aren't feeling up to par, if you are really ill, if you have searched everywhere for relief without success . . . let science help you out.

Here's a brand new, scientific, almost magic radionic discovery that aids in finding the cause responsible for your trouble. You will know what your trouble is and how to correct it. Your blood pressure will be taken. Your heart and lungs will be examined. There is no pain, no surgery. You will be checked for dietary deficiencies and told what they are. You get a REAL physical examination scientifically—with the Hemovitometer.

CALL EARLY FOR APPOINTMENT!

DR. M. Y. LEWIS

Expert technician with the Hemovitometer Co., Denver, Colorado, will be here for this special scientific clinic.

INSURANCE IS NOT AN EXPENSE—IT IS AN INVESTMENT IN SECURITY!

OWN A MASSEY-HARRIS Self-Propelled COMBINE

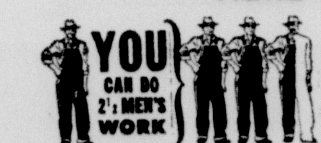

...the *only* Self-Propelled with a million-acre performance record!

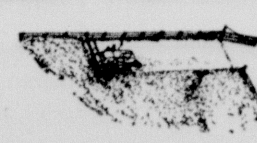

Yes, the Massey-Harris Self-Propelled Combine has proved to the world that a new day has come in the harvest field—a great new machine that saves men, grain, fuel and money on every acre harvested. It proved it

in the great Massey-Harris Self-Propelled Harvest Brigades of 1944 and '45—has been proving it for six years in the hands of thousands of farmers. No other Self-Propelled has this time and field-proven background.

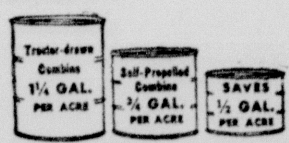

HERE IS WHAT THE RECORDS SHOW

That one man with a Massey-Harris Self-Propelled can harvest as much grain as 2 to 3 men using a tractor-tramped down on opening cuts by a combine of the same size . . .

That the Massey-Harris Self-Propelled saves an average of 1/2 bushel of grain tramped down on opening cuts by tractor-drawn combines.

That the Massey-Harris Self-Propelled operates on 1/2 gallon per acre less fuel than is required by a conventional 14-foot combine and tractor, because only one engine is required . . .

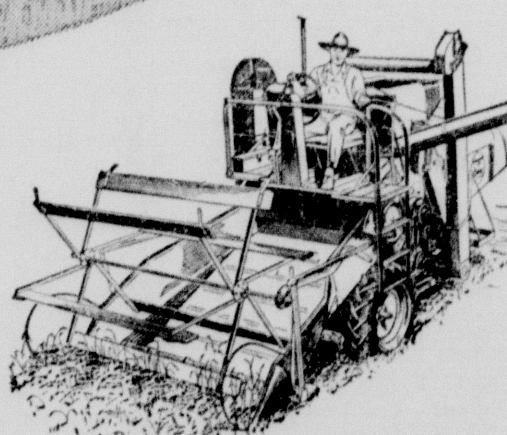

In addition to these Brigade-Proved advantages, the Massey-Harris Self-Propelled gives you these EXCLUSIVE FEATURES:

Low center of gravity, with weight of engine and grain tank counterbalanced—providing easier handling and better performance on uneven ground. • Power grain tank unloading that makes unloading easy, even "on the run." • Eye-view location of grain tank that permits the operator to check tank without leaving seat. • Unequaled grain-saving ability and simplicity of construction result in easier, more efficient combining.

TRACTORS. COMBINES. FARM IMPLEMENTS

KEEP BUYING WAR BONDS!

From where I sit ... *by* Joe Marsh

Our town
has heroes, too

Over at Thistle Ridge they're always boasting about their local heroes—ancestors in the Revolutionary War, congressmen, and an artist with pictures in the Metropolitan Museum.

Well, we've got our local heroes, too...

There was old Doc Turner, who fought for years against the intolerance and bigotry that kept children from being vaccinated in our county.

And Deacon Follensby, who fought for free pews in the churches; Jess Hackney, who

campaigned for teaching honest history in schools; Wedd Towers, who fought the encroachment of Prohibition in our county and persuaded folks they wanted tolerance and moderation in place of a return to lawlessness.

You won't find monuments to these folks. But from where I sit, they're heroes in a cause that's pretty sacred in our town: the cause of freedom, tolerance, and human dignity.

Joe Marsh

Stanley H. Swift is Home From the Navy

Stanley H. Swift, recently discharged from the United States Navy, has arrived at his home in Cameron.

As a Lieutenant in the Navy he was on duty in Seattle Washington when he was discharged. With Mrs. Swift and their two children, Sarah and Hill, they motored to Cameron by way of California where they visited relatives for a few days.

Mr. Swift was commissioned in the Navy in 1942, and spent 17 months in the Canal Zone. Later he was stationed in New York and his latest assignment was in Seattle.

For the next few weeks Mr. Swift plans to rest and will also spend some time in Louisiana visiting Mr. and Mrs. Stanton Dossett before becoming active again in his business here as owner of the Swift Theatres, the Cameron and Milam.

Mr. Swift is happy to be home again. As a veteran of World War 2 he can look back with satisfaction to a record of fine service to the navy. Friends here were pleased over his return to take his place in the community as a civic leader.

Suzanne Barbara Lippman attended the football game Friday night between Cameron and Caldwell.

CHRISTIAN SCIENCE SERVICES

"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 30.

The Golden Text is: "Thou, O Lord, remainest for ever; thy throne from generation to generation." (Lamentations 6:19.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts; I am the first, and I am the last; and beside me there is no God" (Isaiah 44:6.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made".

Cpl. Eugene Janicek, 11 Days Afloat in Pacific After His Plane Crashes; Two of Crew Die and Were Buried at Sea; Finally Reaches Australia

DARWIN, Australia, Sept. 24—Five American airmen, survivors of a transport plane crash off Horn island on August 27, have reached here after spending 11 days on life rafts in the Arafura sea and finding shelter on a Japanese-occupied island, it was disclosed today.

The survivors are Capt. Otto Liepski, pilot of Wisconsin; Lt. Howie Crothers, co-pilot, of Arkansas; Capt. John Rodolf, Tulsa, Okla.; Sgt. Frank Termin, radio operator, of Borger, Texas, and Cpl. Eugene Janicek, engineer of Cameron, Texas.

Two men, a 29 year old air corps major and a 26 year old air corps lieutenant, died on the raft. Their names were withheld pending notification of relatives.

Survivors drifted to Jainia island in the Tenimbar group where the Japanese cared for them and sent a radio message to air headquarters at Morotai for an aircraft to be sent after them.

"We were lost for three hours and decided to ditch the plane," Liepski said, in describing what happened after the crash.

"After sailing west for five days on life rafts we gave up hopes of reaching Australia. We rationed our water to two tiny bottles each daily.

"During the last three days on the rafts the lieutenant began to fail and he died early in September 5. Just as we buried him I stood up and sighted land.

"After we staggered ashore on Jainia, about 15 Japs came down in trucks, and took us to a fairly clean hospital. They gave us mattresses, blankets and mosquito nets and fed us rice, sweet potatoes, soup and fruits.

"We were about 15 days in the hospital when a Jap intelligence officer took our names and said he was asking Australian headquarters at Morotai to send a rescue plane."

The men were flown out in a Catalina.

work record."

Any employer having trouble getting his employees to report their account number to him should write the Social Security Board field office at Austin, Texas, for assistance.

Mr. and Mrs. E. R. Cornelius of San Antonio have moved to Cameron where they are making their home with Mrs. Cornelius' parents, Mr. and Mrs. Henry Brown for the present. Mr. Cornelius is an experienced radio service man, and expects to open his shop in Cameron soon.

Making Tax Returns Worker's Account Number Needed

Although almost all business firms are careful to enter each worker's Social Security Account Number on their tax returns, a recent study of returns for the quarter ending June 30, 1945, revealed that there were several local firms which omitted one or more such numbers, stated David S. Pruitt, Manager of the Austin field office of the Social Security Board.

"Failure to enter the worker's number on the tax returns means that unless that worker is identified by the Social Security Board, it is impossible to credit him with those wages," added Pruitt. "There have been a few instances where we were unable to pay full benefits to a worker's family because he had neglected to tell his employer what his number was and the survivors did not know where he might have been working during those blank periods on the

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

More precious every day
... YOUR ELECTRICAL APPLIANCES

American women know the time and labor-saving value of modern electrical appliances. Today these household helps are doubly treasured and proper care and use of these appliances are necessary to prolong their usefulness until new ones are available. Even with the end of the war at hand, getting back to full, peacetime production of electric refrigerators, washing machines, sweepers, and the many other time and labor-saving appliances will take time. So give your present appliances the care they deserve.

Here are a few hints to help you keep them working:

- KEEP THEM SERVICED... Oil them regularly as prescribed by the manufacturer; keep them properly adjusted, and when repairs are needed... take them to a competent repairman.
- KEEP THEM CLEAN... Keep surface clean with damp cloth to prevent rust. Do not dip motors and heating appliances in water. Wash lamp bulbs and reflector bowls regularly to assure maximum efficiency of lighting.
- KEEP THEM IN USE... They are your most dependable helpers... will give you more time for the "thousand and one" things women are being called upon to do during these busy times.

TEXAS POWER & LIGHT COMPANY

"Relax" is the word... Have a Coke

...or making a rest refreshing

Wartime tension and overtime work make relaxation doubly important. Whether fishing or spending Sunday on your own porch, there's nothing like ice-cold Coca-Cola to make a brief rest refreshing. Keep Coca-Cola in your refrigerator at home. Have a Coke is the invitation to enjoy the pause that refreshes.

Yoemen Score 8 Times To Defeat Caldwell

JIMMY MAREK LEADS FOUR SCORING BACKS

Yoemen Chant blazes with a new cryptogram today. It reads like this: "Don't Fence Me In."

The melody of it was clicking off by four backs Friday night in the game against Caldwell in a definite bid for conference recognition. The score was 49 to 0 and the second impressive win by the Yoemen in as many starts this season.

The Hornets had none of their old sting, in fact they were about the most impotent team ever seen on the Cameron gridiron. They were able to make only one first down while the Yoemen piled up 17. Coach Jackson's 1945 Yoemen took off their wraps and in one of the most dazzling offensive games ever witnessed here tore into their opponents to chalk up 8 touch downs but could muster only one extra point. Pete Kunz whose tee off performances were up to standard had great difficulty. He finally found his toe after the 6th touchdown and hoisted one through the bars. The Yoemen passing game was short of expectations but their running game was dazzling.

The game got under way at 8:20 after a brief ceremony in which a Victory and Memorial service was held. George Childress, President of the school board, in a brief address

led the ceremonies. His speech was an eloquent expression of war impressions and a look ahead to peace and worthiness. Two Yoemen have died since the last football season. They were Woodrow Ermis, victim of a German submarine attack in the Gulf, and Roy Eichenhorst who died in the spring from infantile paralysis. Other Yoemen have died in this war. A minute of silent meditation preceded the playing of the National Anthem and the game was on. John Hays was at the microphone for a play by play description of the game.

The north stands were crowded and many stood up along the sky line. There were a considerable sprinkling of fans along the cinder track as the game got under way. The south stands were fairly filled. The new souvenir programs were eagerly sought. The shortage was disappointing as only 700 were allotted to the game.

The game was but a few minutes old when the Yoemen scored. Little T. J. O'Neill set up the first touchdown with a long sprint from a neat handoff, placing the ball in scoring position. Then came Dick Burke, 140 pound speed artist who tore around the Caldwell right end for 13 yards and pay. The Yoemen counted three times in the first quarter. The fireworks were continuous with Burke and O'Neill clipping the grass in a series of great midfield runs. T. J. O'Neill who led the scoring in the Marlin game came through with two

touchdowns in the first quarter, always skirting the Caldwell right and left ends in those sweeping plays that originate from mysterious juggling of the ball behind the lines from the T formation. T. J. scored both his counters from the Hornet 20 in a neat bit of speed. Kunz had not found his toe and the extra points fell somewhere near the Hornet scrimmage line.

The sensation of the game was Jimmy Marek, 150 pound full back. Marek led the scoring with three touchdowns, each of them from long sprints down the field. He scored the 4th touchdown of the game when the second quarter was but a few minutes elapsed. He ran 30 yards and it was a scintillating gallop. Again Kunz failed to convert.

Paul Burke who checked into the lineup this week justified all pregame expectations. He accounted for two touchdowns, the fifth one after a 25 yard breeze, running with great deception.

Jimmy Marek came into the picture again, this time a 50 yard jaunt with a Hornet pass neatly tucked away after an interception. Jimmy cut slightly to the side lines off the Cald-

well right end and was never touched.

Paul Burke came back with the 7th touchdown. It was on a 25 yard dash through the Hornet right side. Here Kunz found his toe and lifted the ball through the uprights.

The wild scoring was climaxed by a 40 yard run by Jimmy Marek who took the ball from his full back position and skirted the Caldwell right end for the score, going over with a Hornet hanging on. That was the end. The score was 49 to 0.

Referee Standifer cost the Yoemen a touchdown. It was in the third quarter and T. J. O'Neill had taken the ball from a double relay and was well off around the Caldwell left end when Standifer blew his whistle. The play was so deceptive about half the Caldwell line piled on Dick Burke. It fooled Standifer too. As T. J. raced to the scoring position it appeared to fans in the south stands he was hesitating to pick up his blockers. In reality it was a boner on Standifer's part who later in the gymnasium told the boys it was his fault.

The entire Yoemen line turned in a brilliant game, sparked by a big sweater with 77 on it—Gillis Gra-

ham, towering right end. Jimmy O'Neill at center proved too much too Pete Kunz at Left Guard looked like champions.

Bobby Kirk starring at Right Tackle for his second game was 150 pounds of blond dynamite. Bruce Price at Left Tackle was impressive as usual. Rounding out the starring line up is Hawkins at left end. He was very effective both on offense and defense.

In the fourth quarter Coach Jackson sent in five replacements. They accounted for two touchdowns.

Lawrence Michalka who looks like a new find as a passer called an excellent game at Quarter Back posi-

often to the Hornes as he did against Marlin. Wallis at Right Guard and tion.

Next Friday night the Yoemen go to Navasota where they expect to meet their toughest opposition of the year.

Miss Vera Fisher has returned from Houston where she spent several days visiting in the home of her sister, Mrs. W. H. Baines. Mrs. Baines and children were accompanied home by Miss Fisher after having spent several weeks in the Fisher home.

Mrs. Charles Miller visited in Waco Tuesday and Wednesday.

Users are enthusiastic about better than pre-war Esso Extra! They tell their friends and their friends tell theirs! Company records of new users—repeat sales—sales increases—all the things which tell us that users like Humble products—indicate prompt and hearty approval of better than pre-war Esso Extra by Texas motorists.

Have you tried this fine gasoline? If you haven't, drive into the nearest Humble station and fill up today. Like your friends, you'll notice instantly—the

better than pre-war quality of Esso Extra. Always first among premium gasolines, today's Esso Extra is better than ever before. Now—in addition to easy starting, matchless pick-up, knockless performance—Esso Extra has a new high octane rating exceeded only in the fuel used by war planes in combat. Don't wait longer for better than pre-war performance from your car. Take a tip from your friends—fill up today with better than pre-war Esso Extra, the finest gasoline you've ever used.

THANKS!

During the war years, Humble men and women worked with magnificent devotion to duty to give Allied arms the petroleum products needed for victory. Now, when their skill and Humble's unrivaled manufacturing facilities have been turned once more to the needs of peace, the Company feels it is a fitting time to let you, the user of Humble products know of this, and thus to publicly express its appreciation to Humble workers for their outstanding loyalty.

HAVE YOUR MOTOR TUNED FOR BETTER THAN PRE-WAR PERFORMANCE

To take full advantage of the better than pre-war quality of Esso Extra, we suggest that you have your motor tuned. Some cars need only a simple adjustment with a screw-driver; others need the attention

of a mechanic. But you know what your car needs. When you use better than pre-war Esso Extra, have your motor tuned for better than pre-war performance.

JACK HENDERSON IS NEW FIRE MARSHAL

Jack Henderson has been named Fire Marshal by Mayor Chas. C. Smith.

Mr. Henderson has accepted the appointment and was on duty Saturday, calling on business men. He is now serving as Fire Chief and his additional duties will be in line with his present work.

Mr. Henderson will not carry the time clock, his new duties being only Fire Marshal. He said he would enforce regulations and keep the city clean of fire hazards and make the reports to insure the city against penalties by the Insurance Commission.

Gatesville Bows To Taylor Ducks

Gatesville, Sept. 21.—Taylor's mighty Ducks, still the potent threat of yesteryear, used all four quarters before doing it Friday night but finally racked up a 13-7 victory over the Gatesville high school aggregation here.

A scoreless first half saw the Ducks outclass the Gatesville team, but go without a serious threat at the Gatesville goal line.

Both teams scored in the third stanza with Sanders for Taylor running the first touchdown of the game over and Necessary of Gatesville giving a carbon copy a few minutes later. Both conversions were made.

In the final period, with only minutes to play, Jirasek of Taylor bucked over for the final score of the game. The conversion failed.

Miss Gloria Hearne, who is attending business school in Fort Worth, visited her parents, Mr. and Mrs. Olen Hearne.

Personal Mention

Guests in the home of Mr. and Mrs. J. M. Terry for the past week end were, their son, Sgt. R. L. Terry and wife, Mr. and Mrs. Crouch and son of San Antonio, and Mrs. Reba Aynesworth and Rebecca Sue Terry of Waco.

Mrs. A. G. Buffington has returned from San Francisco, Calif., where she has been for the last nine months. She reports that her husband S1-C A. G. Buffington, is on his way home.

Jerry Daskocil of Fort Worth transacted business in Cameron last week.

Owen Stidham USN is on leave visiting his parents, Mr. and Mrs. Grady Stidham.

Mr. and Mrs. William Manley arrived from Oakland, Calif., this week and visited in the home of Mr. and Mrs. Robert Lange. Mr. Manley has recently been discharged from military duty, after serving nearly four years in the Navy. Mrs. Manley is the former Norine Lange. They are visiting in Austin at present.

Miss Doris Stidham of Texas University spent the week end with her parents, Mr. and Mrs. Grady Stidham.

Marie Crouch has returned from from her visit in Galveston.

John Lee Brock celebrated his ninth birthday Thursday, September 20th 1945.

Estelle Burke Hinton of Cameron has been with the Brown Ship Building Corporation in Houston doing an important war job. In a recent issue of the Brown Victory Dispatch, company newspaper, Miss Hinton is listed as in charge of blue print files.

Eugene Jekel is a patient in Newton Memorial Hospital, and is reported to be resting nicely.

Guests in the home of Mr. and Mrs. Ben Lindeman Sunday were: Mr. and Mrs. J. E. Roabe and son, Gilbert of Barclay; Mr. and Mrs. W. A. Lindeman and children, Hazel and Douglas; Mr. and Mrs. O. F. Trojan and son, Marvin; Mr. and Mrs. W. H. Lindeman of Temple, Rev. and Mrs. R. Kalkbrenner and son, Bobby of Vogelsang; and Pfc. Milton Trojan who recently returned from Germany.

Research reveals that golfers who make the best score don't swear. Why should they?

Miss Velma Reese is a patient in the Oxchner Clinic in New Orleans, La.

Gyendolyn Chandler of Cameron is among the more than 500 girl students at University of Texas to be pledged to sororities at the close of the fall rush week. Miss Chandler is an Alpha Gamma Delta.

Jane Stedman is visiting her parents for a few days.

Milam County Sailor Survives Jap Attack Aboard Battle Ship

The ship they once called the luckiest battle wagon in the fleet, the USS Pennsylvania, greeted the dawn of peace with her stern low in the water and her crew fighting to keep her afloat. Her luck had run out suddenly and tragically two nights previously when a lone Jap plane pressed home an attack which opened a gaping death strewn hole in the Pennsylvanias side. So as the voice of her Skipper, Captain W. M. Moses, USN, told Pennsy's crew of Japan's surrender there was no wild jubilation, no noisy rejoicing such as occurred on many other ships. There was instead a quiet feeling of joyful relief tempered with sorrow for those shipmates who had given their lives when peace was so nearly won. There was reverence too, as tired men at pumps and guns and in water soaked compartments bowed their heads in a moment of silent prayer for those who had lost their lives in the war; then turned doggedly again to the task of repairing the ship which had carried them safely through nearly four years of the Pacific war. From the beginning the Pennsylvania had been considered a lucky ship. She was in drydock at Pearl Harbor on December 7, 1941, and received only two minor bomb hits while her sister battleships all about her were heavily damaged. After being regunned she steamed back into the war and played a vital role in thirteen Pacific amphibious operations. From the fog shrouded waters of Attu to the death laden gulfs of Leyte and Lingayen in the Philippines the guns of the big "P" rained death and destruction on the Japs. It is believed that she fired more tons of ammunition than any other ship in naval history. She fought off Kamikaze attack by the score, but on the night of August 12th, as her crew talked happily of the peace for which they had fought so long, a Jap torpedo plane inflicted the first major damage the ship

had received since Pearl Harbor. Today the danger is past and the Pennsy will sail again.

Her crew is disappointed that her wounds will prevent her from steaming triumphantly with the American Fleet into Tokyo Bay, but they are grimly determined that with colors high the Pennsylvania will carry on in true Naval style.

Among this gallant crew is a Milam county boy, S1-C Edward Lee Fikes, 21 years old son of Mr. and Mrs. Billie Beard of Buckholts. S1-C Fikes entered the service at the age of 17 years, and is a veteran of nine major battles. His parents have had word from him since his ship was damaged. He was not injured during the attack. They hope for his early return to the states.

Chas. C. Swift early this week received a letter from his sister, Mrs. Joe Meredith in Strawn, stating her son Edgar Meredith had been liberated from a Jap prison camp. No word had been received from him in many months. Another brother, also a nephew of Mr. Swift, is a prisoner of the Japs and has not been heard from in a long time. Both boys were in the Air Corps and were captured in the Philippines.

Mr. and Mrs. Harry T. Thach, formerly of Cameron, but now of Ft. Worth made a short visit in Cameron this week on their way to Houston, where they will spend their vacation.

Mary Joe Stedman Among Advisors at Texas University

Six girls' dormitories at the University of Texas have announced their upper-class advisors staffs for the fall semester.

It is the duty of these 64 advisors to help co-ordinate the social activities of the dorms and to advise new students.

Among the upper-class advisors is Mary Joe Stedman of Cameron, daughter of Mr. and Mrs. Hilary Stedman.

Key Rate Penalty May Be Lifted

The penalty imposed here resulting in an increase in the key rate of insurance, may be lifted soon, it was indicated early Friday.

Dan Tyson, city secretary and treasurer, early Friday telephoned the Fire Insurance Commission in Austin and explained the situation here and was told there is a good prospect the penalty can be avoided.

Mr. Tyson was hopeful. The penalty was imposed because the department had received no reports recently from the Fire Marshal. These reports will be sent in at once.

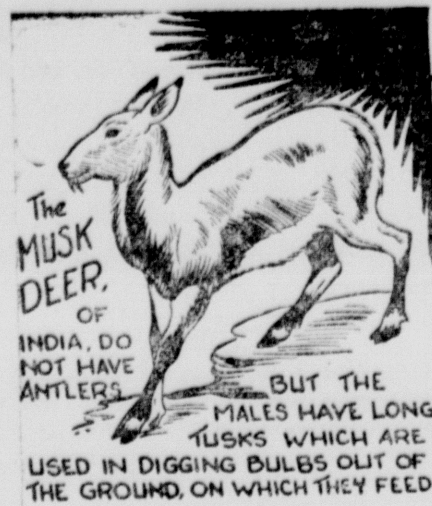

Pepsi-Cola Company, Long Island City, N. Y.

Franchised Bottler—PEPSI-COLA BOTTLING CO., of Caldwell

Mrs. Halpain and son, Jessie, are visiting her daughter in Coleman. Gwen Chandler spent the week end at home with her parents.

LONE STAR GAS NEWS

VOL. 2

Published by Lone Star Gas Company to bring you news about Gas industry planning for easier, better living in postwar world.

SEPTEMBER 1945

FLYING GAS RANGES ARE THE LATEST NEWS.—Above is a consignment of Universal gas ranges as they were packed snugly into an American Airlines cargo plane for a flying trip from Chicago to Los Angeles. The history-making flight occurred recently when Cribben & Sexton Company at Chicago loaded 18,500 pounds of Universal gas ranges into the Consolidated Vultee which made the trip. More than half the shipment of ranges was left uncrated to establish proof of savings in time by this method of transportation. The flight was considered a significant beginning of fulfillment of postwar merchandise and transportation.

Atom Energy and Future Power

Probable development of atomic energy for household and industrial uses gives rise to the question as to whether such energy could displace present sources of power and energy such as gas and electricity. Thomas S. Bacon, research engineer for Lone Star Gas Company, states that the new development lends emphasis to the importance of exportation of natural gas from Texas in order that its benefits may be derived while a market still exists.

"The atomic bombing of Hiroshima meant the solving of the primary problem of the use of atomic energy," Mr. Bacon said. "The secondary problem, the peaceful use of atomic energy, remains unsolved. The energy is certainly there, but ways of economically releasing it are not presently known. When and if these ways become known, the gas, petroleum and electric industries may become out of date.

"Our natural resources must be used wisely at all times as they must last until the physicist proves his dreams of atomic energy release is not simply a dream, but can be economically beneficial. And on the same count, exportation of natural resources from Texas should not be wasteful in the expectation that atomic energy will economically replace the chemical energy of natural gas in the near future.

"Such exportation is, of course, entirely justified by present conditions. It may be emphasized, however, that probable developments in the use of atomic energy in the future would lend emphasis to the importance of exportation of natural gas from Texas now, so that income may be derived therefrom while a market for the commodity exists."

In explaining the theory of the atomic bomb, Mr. Bacon pointed out there is an analogy that may be drawn between it and the natural gas business that might be helpful in obtaining some conception of the significance of the atomic bomb in physical terms.

"Consider the pilot flame on the modern cook stove which employs a very small amount of natural gas," he said. "The flame involved is so insignificant as to escape notice; yet if one holds his hand a few inches above the flame some heat can be felt. So the

flame is a very small thing yet it evolves energy continuously.

"Radium is a close relative of uranium, and uranium, or a special isotope of uranium, has been mentioned as the principal active constituent of the atomic bomb. Very minute quantities of radium will evolve appreciable amounts of energy.

"This energy is atomic energy as defined by the physicist and is substantially identical with the energy released in the atomic bombs. The rate of evolution of energy from radium is not controlled by man but is controlled by the inherent properties of the radium metal itself. However, man has been able to measure it and also to measure its rate of decline.

"The Physicist has estimated that a given piece of radium will lose just one-half of the energy that it now contains in 1,690 years. In other words, the rate of energy decline of the given piece of radium is extremely slow.

"The gas flame mentioned above releases a small amount of energy continuously, as does radium. Assume now that we had the gas pilot 1,600 years ago and connected the pilot to a storage tank in which we would store the amount of gas that would pass through the pilot in that period of time. If now we take this tank containing unburned natural gas that has been passed through the small pilot during 1,600 years and mix it with the proper proportion of air and pass a spark through the mixture, a very impressive explosion would result. The impressiveness of the explosion may be gauged by the fact that calculations show that 7,000,000 cubic feet of gas would have passed through the tiny gas pilot during the 1,600-year period.

"The atomic bomb represents the similar explosion that is the liberation instantaneously of energy stored in the radio active element, uranium. As mentioned, the normal liberation of this energy is low but the physicists have discovered how to release it at their will and in a brief period. This, then, is the significance of the atomic bomb. It demonstrates that man has finally learned how to control at least one form of radio active energy on a significant scale."

HEATING SHOULD BE PLANNED AS PART OF HOUSE FOR COMFORT

Since so much of the health and comfort of the family depend on the heat of the home, the type of heating and how it is installed should be one of the most important considerations in the building of a new home or modernizing the present one. The time to attend to the selection and installation of gas appliances is during the planning stage. For only with proper equipment correctly located and installed will you enjoy the many conveniences and benefits of using America's sought-after fuel—Natural Gas.

In building a new home or in remodeling an old one, Lone Star Gas Company urges that necessary flues for venting gas heating equipment be installed. Vented heating is heating by means of appliances which are connected to a flue. The purpose of connecting an appliance to a flue is to carry to the outside air the products of combustion resulting from burning fuel, thus preventing release of these products into the room.

Gas Industry Plan Includes Millions For Big Expansion

The natural gas industry is returning to peacetime operations in an excellent position to expand its service to the public and to other industries, according to R. H. Hargrove, chairman of the natural gas department, American Gas Association. Mr. Hargrove said that natural gas companies carried a tremendous responsibility during the war. The natural gas industry in the Southwest made it possible to operate hundreds of war-time industries, flying fields, and Army camps, while delivering record quantities of gas for homes and commercial users.

The industry has filed projects or has recently received approval of the Federal Power Commission for construction of nearly 5,000 miles of additional gas pipeline throughout the country. Mr. Hargrove said that the industry expected to spend more than \$160,000,000 for plant expansion, maintenance, and inventories and supplies in the next 12 months, greatly aiding in the employment problem.

Safety Awards

Dallas Division of Distribution and Lone Star Gas Pipe Line Operating Department have each been awarded first place in their classifications in the Texas Safety Association's annual Safety Contest for 1944.

The contest is conducted by the Industrial Section of the Safety Association and is based on the lowest accident frequency submitted by contesting companies. Both Dallas Division of Distribution and the Pipe Line Department are in the 1,000,000 employee hours classification.

Bombs for Gas Wells

Not all bombs are destructive ones. The type used by the Lone Star Production Department, for example, are extremely valuable in determining the future natural gas reserves of the company.

The units, of cylindrical shape and equipped with clock, chart, and stylus, are lowered into the well to determine bottom-hole temperatures and bottom-hole pressures of the reserves. From this data information is obtained which aids in more accurately calculating the potential and reserve of the well.

School Opening Finds Glamorous Gas Comforts Beckoning Youth

Students returning to school from their summer vacations in the first peacetime year since the fall of 1941, may well be thankful for the kind of a country they live in. It is truly a land of superlative values, both spiritual and material.

Yet many of these important values will go unappreciated unless it is thoroughly understood that back of all accomplishment is toil and struggle.

The modern material conveniences which the young people of this generation find so ready at hand did not come into being just by waving a magic wand. Back of them are long years of toil and the investment of huge sums of capital.

In this great Southwestern land there is perhaps no more significant development than the conveniences which natural gas service has placed within reach of every home. The young lady of today, when she has a home of her own, can acquire a sparkling New Freedom Gas Kitchen where everything will be easier.

She will have a marvelous new gas range, fast, efficient and so completely automatic that it will cook a delicious meal even when she is away.

The new silent gas refrigerator will be roomier than ever, de-

signed to keep all kinds of food fresh longer.

Cleaning up will be easier. The economical new gas hot water system will keep oceans of hot water always on tap for dishes, laundry, baths.

These new kitchens will be free from unwanted heat, dirt, and even offending cooking odors.

Cabinets and everything will be scientifically placed to save time and work. They will be free from little open spaces that catch and hold dust and crumbs.

And then there is that marvelous year-round gas air-conditioning system. This is perhaps the most exciting news of all. The modern housewife on a hot day will be able to start a flood of cool mountain air circulating throughout the house with just a flick of the finger. But summer comfort is just half the story. The versatile blue gas flame leads a "double life." The one simple unit that cools hot air and removes sticky humidity in the summer, also warms and humidifies cool air in winter. Between seasons, when a moderate temperature is all that is needed, the gas conditioner gently circulates clean, filtered air.

No doubt about it! Gas is opening up a whole new world of comfort and convenience. This truly is the magic generation.

Kitchen Dimensions Fit Average Stature

Kitchens, like clothes, are now being designed to fit the stature of the women who will use them. As the result of a nation-wide program of the gas industry, the New Freedom Gas Kitchen will be built throughout to standardized measurements for the woman of "average stature" and will include adjustments which will lower working surfaces for the women of "less than average" stature.

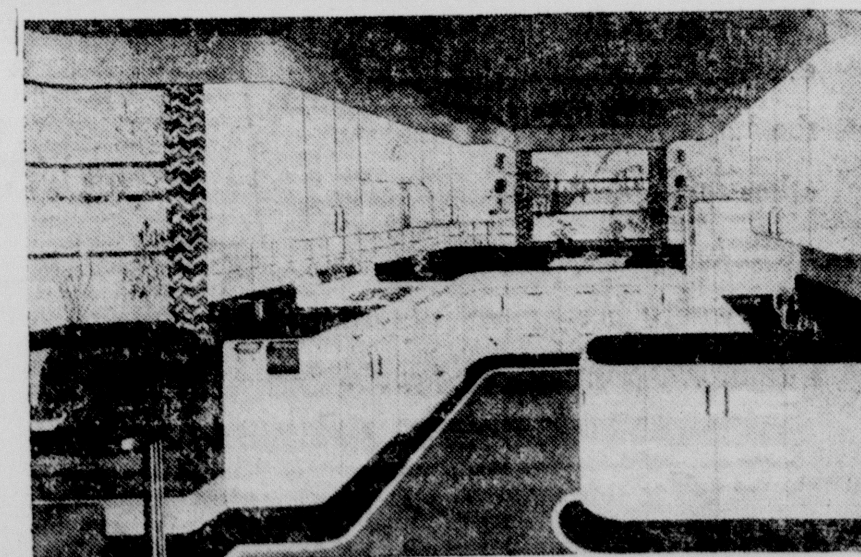

The standardized dimensions of kitchen equipment will help to eliminate bewildering aspects of kitchen planning and to provide greater ease in selecting coordinated kitchen units. They will also allow the plan of adding a piece of equipment now and then over a period of several years without sacrificing unity of design.

Gas Refrigerator Uses Small Amount of Fuel

The gas refrigerator takes only a small amount of bargain-priced Lone Star gas to run.

This marvelous refrigerator has no machinery to wear out and need replacing, therefore it has very long life. Since there is no starting or stopping of the cooling cycle the refrigerator gives constant cold. With no machinery to vibrate and make noise, it is always silent.

In this automatic refrigerator, it is the magic flame that makes the difference. The refrigerator is basically different from all other automatic refrigerators because a tiny gas flame does the work. War-time proved the value of the silent trouble-free performance of the gas refrigerator. With repairmen hard to obtain, owners of these magic boxes were happy that they chose a gas refrigerator.

This is a view of one of the New Freedom gas kitchens which will soon be available to users of natural gas service in the Southwest. Simple beauty combined with scientific arrangement and spacing of cabinets around the silent gas refrigerator and CP gas range form a kitchen compact and efficient. It is one of the many new designs resulting from months of research and planning by the gas industry in cooperation with appliance and cabinet manufacturers, and home economists. It is an easier-to-work-in kitchen where cooking odors, heat and greasy vapors are removed before they can circulate into the room. Plan and save for your New Freedom Gas Kitchen.

GOOD NEWS

Good news just received from J. L. Taylor & Co., of Chicago and New York.

Orders for suits and single pants, can now be delivered in three weeks time.

Lots of fine all wool materials to select from.
